

# A Simple Introduction to Python

Minor typographical Errors:

The list1 is [1 , 2 , 3 , 4 , 5] NOT [1 , 2 , 3 , 3 , 4 , 5]. Apologies for the confusion!

```
In [2]: list1 = [1 , 2 , 3 , 4 , 5]
```

```
In [4]: len(list1) , max(list1) , min(list1)
```

```
Out[4]: (5, 5, 1)
```

```
In [6]: list1[1 : 3] , list1[2:] , list1[:1]
```

```
Out[6]: ([2, 3], [3, 4, 5], [1])
```
